## BOOKS RECEIVED

G. I. RIGHTS AND ARMY JUSTICE: THE DRAFTEE'S GUIDE TO MILITARY LIFE AND LAW. By Robert S. Rivkin. New York: Grove Press, Inc., 1970. Pp. vii, 383. \$1.75.

The rights and liabilities of the draftee's life are examined in this book from a legal standpoint. Its usefulness stems from the book's "how to" or "what to do" aspects. Its liability lies in its polemical attack on the military. Because of the practical orientation, it is a valuable book, especially for the draftee.

HUMAN RIGHTS AND INTERNATIONAL ACTION. By Ernst B. Haas. Stanford, California: Stanford University Press, 1970. Pp. vii, 184.

This book argues that despite debates, resolutions, and treaties, the global effort to protect human rights by international means has been a failure; and that national ideologies and value systems, instead of coalescing, are growing more diffuse. The vehicle for this study is an analysis of 500 complaints investigated by the International Labor Organization between 1950 and 1968.

INDIRECT TAXATION IN DEVELOPING COUNTRIES. By John F. Due. Baltimore: The Johns Hopkins Press, 1970. Pp. v, 201. \$9.00.

The purpose of the author's study is to determine, in the context of the total economic growth of a country, through whom a government may implement its national goals by a selective use of indirect taxation. The author uses an economic approach. For this reason, his work points up the continuing need for the exchange of information between law and the social sciences.

INTERNATIONAL TELECOMMUNICATIONS AND INTERNATIONAL LAW: THE REGULATION OF THE RADIO SPECTRUM. By David M. Leive. Dobbs Ferry, N. Y.: Oceana Publications Inc., 1970. Pp. 11, 386. \$16.50.

This study provides the first detailed examination of the international radio frequency spectrum. The author attempts to solidify the law of nations in this area and provides a series of recommendations for improvement of the international regime. The book is a positive contribution to a relatively "virgin" area of international law.

THE WINDS OF FREEDOM. By Dean Rusk. Edited by Ernest K. Lindley. Boston: Beacon Press, 1963. Pp. v, 363. \$2.45.

Winds of Freedom is a collection of the writings and speeches of Dean Rusk during his tenure as Secretary of State. The work is valuable for anyone interested in the development of American foreign policy during a period of sweeping transition in our international posture.
